Candidates answer on the Question Paper.

No Additional Materials are required.

READ THESE INSTRUCTIONS FIRST

Write your Centre number, candidate number and name on all the work you hand in.

Write in dark blue or black pen.

You may use a soft pencil for any diagrams, graphs or rough working.

Do not use staples, paper clips, highlighters, glue or correction fluid.

DO NOT WRITE IN ANY BARCODES.

Answer all questions.

No marks will be awarded for using brand names of software packages or hardware.

At the end of the examination, fasten all your work securely together.

The number of marks is given in brackets [] at the end of each question or part question.

11 Scientific experiments are carried out where temperatures are taken at the start and at the end of each experiment. The volumes of gas being given off are also measured.

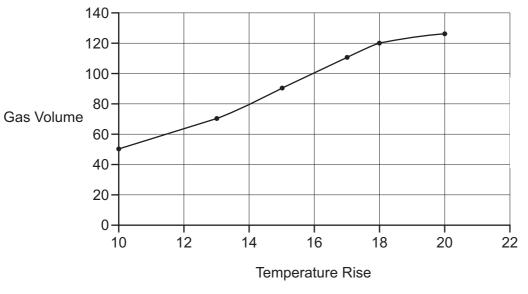

For Examiner's Use

The spreadsheet shows the measurements taken.

16 The following flowchart shows what happens when a customer uses a credit card to pay for goods at a supermarket. Ten of the boxes are blank.

For Examiner's Use

Using the items from the list, insert the **ten** missing statements using the appropriate number only. Each statement may be used once only.

17 A car sales company uses a database.

Here are three tables from the database:

For Examiner's Use

New Car Sales
